Beattie Passive Flying Factory

Building your own Passivhaus homes

- Beattie Passive Flying Factories can be set up **anywhere in the country** for you to manufacture Beattie Passive homes – either located in **warehouses or on the site for development**
- As part of the Flying Factory offering, Beattie Passive will **train your staff** on how to manufacture the Beattie Passive system offsite and erect the panels onsite
- The Flying Factory option allows you to become **self-sufficient in manufacturing your own houses to a Passivhaus standard**
- The Flying Factory reduces the **cost of transport** and means **local labour and supply chains can be utilised**
