

UK Passivhaus Conference

November 25, 2020

Two Challenges for the Next Decade

Rob Bernhardt,
Advisor, Projects & Policy
Passive House Canada

The First 10: Policy Development

- Climate action takes root
- Growing pressure on government to adopt goals
- Growing number of quality projects
- High level policies and goals established
- Passivhaus Trust develops a voice

The Next 10: Implementation

- Different people involved
- Established interests
- High volume of detailed work
- The power of inertia is engaged

Parkdale Landing retrofit, Hamilton, ON

Change

- What does it take?
- What does it take to change the building sector?
- Conflicting interests
- Systems not set up to achieve outcomes required
- Challenges are not technical

Clayton Community Centre

Surrey, BC

Construction almost complete

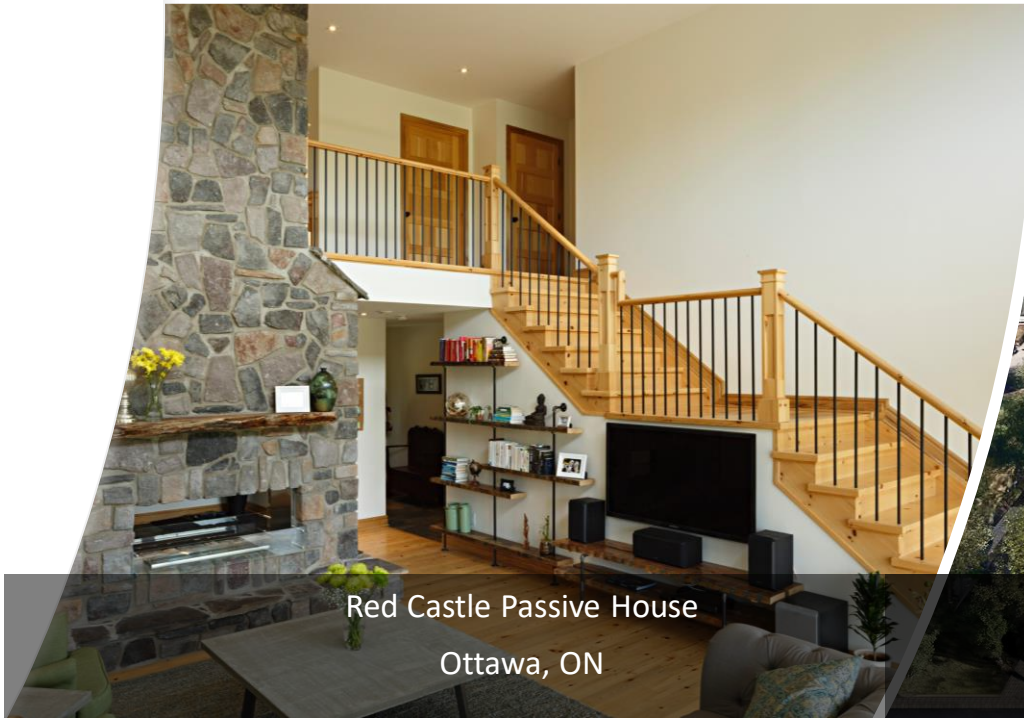

The Next 10 Years: Two Challenges

Keep building projects!

Ensure you have a unified, credible
voice with capacity to engage

Red Castle Passive House
Ottawa, ON

Earth Tower, Vancouver, BC

North Park Passive House Victoria, BC

Alta Lake Passive House, Whistler, BC

Atlantic Coast Passive House, Low Energy
Indian Harbour, NS

Chelsea Passive House, PQ
